Look a little closer

The National Maritime Museum occupies a former naval storehouse beside Amsterdam's water. Ships, navigation and trade connect technical achievement with the lives and consequences behind seafaring. Follow the interpretation as well as the impressive objects. The historic building, courtyard and outdoor visitor areas make different demands on time and accessibility.

Something to notice

Choose a navigation object. What knowledge did it make possible, and whose work did it depend on?

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
