Look a little closer

Amsterdam's botanical garden brings living collections into a compact city setting. Compare outdoor planting with the environments created inside the glasshouses. Labels can open questions about habitats, cultivation and how plants traveled. Glasshouse availability can change during maintenance or special work, so check the current visitor information before planning your route.

Something to notice

Choose one plant and read its origin. Notice how its leaves suit the environment around it.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
