FULLY OPEN

Look a little closer

The Acropolis brings major ancient monuments onto a rocky plateau above Athens. The Parthenon is one part of a carefully related group of buildings and approaches. Look at their positions as well as their surviving details. Restoration, weather and timed-entry controls shape the visit; uneven polished stone requires care, and access arrangements should be checked before travel.

Something to notice

Compare two columns from a permitted path. Notice how distance changes their proportions.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
