Look a little closer

The Acropolis Museum helps connect objects with the buildings and lives of the Acropolis. Architecture, displays and views toward the hill give fragments a larger setting. Leave time for smaller objects as well as monumental sculpture. The museum has its own ticket and visitor rules, separate from admission to the archaeological site above.

Something to notice

Choose one fragment and imagine the larger object it belonged to. What evidence supports your idea?

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
