Look a little closer

The East Side Gallery preserves a stretch of the Berlin Wall with paintings made after the border opened. Art and historic fabric share a vulnerable outdoor setting. Walk without touching or adding marks, and consider the difference between the wall's original purpose and its later use. The public route remains subject to conservation work, crowding and local restrictions.

Something to notice

Compare two visual approaches without photographing every panel. What can a painted surface change, and what remains?

A little consideration

Stay on permitted public paths, leave entrances clear and respect residents, workers and other visitors.
