Look a little closer

Charlottenburg Palace brings Prussian court life into a setting of architecture, collections and gardens. Different palace buildings and routes have separate tickets and opening patterns. Choose the part you most want to see, then notice the relationship between interior decoration and the landscape outside. Garden paths and historic rooms require different amounts of time and different kinds of attention.

Something to notice

Find a repeated motif in the decoration and compare it with a formal line in the garden.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
