Look a little closer

Teatro Colón is one of Buenos Aires' great cultural institutions. A guided visit offers a look at its foyer, galleries, Golden Hall and auditorium, subject to rehearsals and theatre activity. Treat the building as a working opera house, where architecture supports the shared experience of performance.

Something to notice

Look at the curves of the balconies and the change from foyer to auditorium. Notice one detail designed for a crowd and one that rewards a closer look.

A little consideration

Arrive before your booked time, stay with the guide and follow photography rules. Keep voices low and respect rehearsals and performers.
