Look a little closer

Opened in 1897, Mercado San Telmo brings food stalls, antiques and neighborhood life beneath a historic metal-and-glass structure. Juan Antonio Buschiazzi designed the market for a growing immigrant city. Look upward as well as at the counters: the original beams, arches and central dome are part of the experience.

Something to notice

Choose one stall to stop beside without blocking it. Notice a smell, a sound and a detail in the iron roof. Leave room for a small discovery.

A little consideration

Keep aisles clear, ask before photographing stallholders and check prices before ordering. The covered market is distinct from the Sunday street fair.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
