Look a little closer

The Round Tower combines a distinctive ramp with a history of observation and learning. The ascent is part of the architecture, while the upper viewpoint gives a different reading of Copenhagen's rooftops. Check current opening and access limits, including the final steps and any restoration work. Exhibition and observation arrangements may differ from the general visitor route.

Something to notice

Notice how your view changes as the ramp turns. Find a repeated shape among the rooftops.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
