Look a little closer

San Felipe de Barajas uses slopes, terraces and defensive structures to control approaches to Cartagena. Its scale becomes clearer when read against the ground beneath it rather than only as a panoramic viewpoint.

Something to notice

From a permitted terrace, trace how a wall changes direction in response to the hill.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
