Look a little closer

Florence’s cathedral complex brings the church, dome, bell tower, baptistery and museum into one closely packed setting. These are different visitor experiences with different rules and reservations. Begin outside, comparing patterned marble with the dome’s brick form. Choose any interior or climb deliberately; worship, conservation and stair access shape what is possible.

Something to notice

Compare a small marble pattern with the much larger curve of the dome.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
