Look a little closer

Shukkeien arranges water, bridges, rocks and planting into a compact landscape near central Hiroshima. Follow the garden paths slowly to see changing compositions around the pond; the neighboring Hiroshima Prefectural Art Museum can be visited separately or with a combined ticket.

Something to notice

The garden includes uneven surfaces and small bridges. Check current closures and combined-ticket options at the entrance.

A little consideration

Keep to the paths, protect planting and avoid blocking narrow bridges.
