Look a little closer

Fushimi Inari's torii-lined paths lead from the shrine precinct into the wooded slopes of Mount Inari. Begin with the lower grounds and choose how far uphill to continue; this is an active place of worship, not a decorative photo set.

Something to notice

Look for the changes in light between the closely spaced gates. The uphill routes include steps and uneven surfaces.

A little consideration

Keep the route clear, respect worshippers and take litter away.
