Look a little closer

The Tower of London is a historic fortress beside the Thames. Buildings, courtyards and collections reveal different layers of its royal and public history. Plan for the areas you most want to see, and allow time for queues rather than treating the whole complex as one quick stop.

Something to notice

Compare the White Tower with a smaller courtyard detail. Notice how walls and gateways control movement.

A little consideration

Respect barriers and historic surfaces. Leave stonework untouched and follow visitor and photography rules.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
