Look a little closer

London's South Bank brings cultural venues and public walking space together along the Thames. The river gives the city room to be seen at a different scale. Choose a short stretch of the promenade and leave time to watch boats or pause near a public bench.

Something to notice

Look at a bridge from the river path. Notice how the opposite bank changes as you move.

A little consideration

Keep paths and doorways clear. Respect residents, use marked crossings and ask before photographing people closely.
