Look a little closer

St Paul's Cathedral is a working church and one of London's defining buildings. Its dome is recognizable from many streets, but an interior visit rewards a closer look at scale, light and craftsmanship. Sightseeing and worship follow different arrangements, with separate rules for higher galleries.

Something to notice

Compare the dome's distant outline with a close architectural detail. Notice how the interior handles light.

A little consideration

Respect worship and dress requirements. Keep voices low, follow photography rules and give services and personal remembrance priority.
