Look a little closer

Notre-Dame stands on the Île de la Cité as both a historic landmark and an active cathedral. Its restored interior invites a closer look at Gothic structure and light. Public visits and worship share the same place, so the rhythm of services comes first.

Something to notice

Look upward along a column toward the vault. Notice how light changes the stone without disturbing worshippers.

A little consideration

Respect worship and dress requirements. Keep voices low, follow photography rules and give services and personal remembrance priority.
