Look a little closer

Sainte-Chapelle is a Gothic chapel within the Palais de la Cité complex. The upper chapel's tall stained-glass windows create an unusually luminous interior. Take time to let your eyes adjust and look at how the slender structure frames the stories held in the glass.

Something to notice

Choose one window and follow its colors upward. Notice how the light changes between the lower and upper chapel.

A little consideration

Respect worship and dress requirements. Keep voices low, follow photography rules and give services and personal remembrance priority.
