Look a little closer

Prague Castle is a complex of courtyards, religious buildings and former royal spaces rather than a single castle interior. Let changes in architecture reveal its long development. St Vitus Cathedral gives the skyline its strongest vertical accent. Public grounds and ticketed buildings have different access rules, and ceremonies or security measures can change the visitor route.

Something to notice

Look from a courtyard toward the cathedral. Notice how each space frames the next.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
