Look a little closer

The Strahov monastery's library brings shelves, architecture and painted ceilings into a carefully composed interior. Its famous halls are protected historic spaces; ordinary admission does not necessarily allow entry among the books. Read the current viewing arrangements before booking. The monastery precinct and other collections are separate parts of the wider setting.

Something to notice

Look at the relationship between the shelves and ceiling. How is knowledge given an architectural form?

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
