Look a little closer

Chihuly Garden and Glass presents Dale Chihuly's work through interior galleries, a Glasshouse and a garden. Shapes and colors change as you move between the spaces. Look at the dialogue between glass and planting, allowing the exhibition to unfold rather than rushing to one photograph.

Something to notice

Compare one glass form indoors and one among the plants. Notice how light changes their edges and colors.

A little consideration

Respect barriers and photography rules. Keep voices low, leave displays untouched and give other visitors room to look.
