Look a little closer

The museum brings archaeology, historical objects and art into a large building facing a generous outdoor setting. Choose a few galleries instead of trying to exhaust the collection in one visit. Follow one material, such as clay, stone or metal, and compare what changes as its use moves between daily life and ceremony.

Something to notice

Pick two objects made from the same material and compare what each was made to do.

A little consideration

Follow gallery photography signs; leave space around popular displays.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
