Look a little closer

Seoul Forest offers paths, lawns and planted spaces within the city. Keep the visit flexible: a shaded walk, a bench and a closer look at seasonal planting can be enough. The ecological forest and enclosed garden facilities have their own hours, so an open main park does not mean every enclosure is accessible.

Something to notice

Find a small change in leaf shape, bark or light along a single path.

A little consideration

Stay on permitted paths and do not feed wildlife.

YOUR DAY

Leave a little room

A detail, a feeling, a place to return to...
