Look a little closer

Opened in 1958, Tokyo Tower rises 333 metres above the city. The Main Deck is at 150 metres; the Top Deck is at 250 metres. On the Main Deck, the glass Skywalk Window offers a view straight down.

Something to notice

Follow the lines of the steel lattice from the ground. From above, look for the small streets between the larger roads. What caught your eye?

A little consideration

Keep entrances and walkways clear. Follow on-site instructions. For step-free access, check the operator’s accessibility guidance before visiting.

YOUR DAY
