FULLY OPEN

Look a little closer

The Tokyo National Museum's collection offers many ways into Japanese and Asian art. Instead of trying to see everything, choose a room and look closely at one object: a vessel, a textile or a carefully worked surface. Displays and room access can change.

Something to notice

Look once before reading the label, then look again afterwards. Notice a join, brushstroke or worn edge. How does a little context change what you see?

A little consideration

Follow each room's photography signs; some works cannot be photographed. Keep a comfortable distance from cases and other visitors. Leave large luggage elsewhere and check access notices.
