Look a little closer

The Basilica of Superga stands above Torino in a wooded hillside setting. Its dome and façade can be appreciated separately from the visitor areas within the complex. Plan the journey and return carefully, checking the current access arrangements rather than assuming a particular transport service is running.

Something to notice

Compare the building’s symmetry with the uneven wooded horizon. Notice the city below when visibility allows.

A little consideration

Respect worship and dress requirements. Keep voices low, follow photography rules and give services and personal remembrance priority.
