Torino's National Automobile Museum presents cars within a broader story of design, industry and everyday change. Look beyond a favorite model to the materials and ideas behind it. The collection gives another perspective on a city closely associated with automotive production and engineering.

Something to notice

Compare two vehicles from different periods. Notice a detail that reveals a change in comfort, technology or public taste.

A little consideration

Respect barriers and photography rules. Keep voices low, leave displays untouched and give other visitors room to look.
