Look a little closer

The Hofburg is a complex woven into Vienna rather than one self-contained building. Courtyards, gateways and institutional entrances reveal different periods and continuing uses. This guide begins with the public exterior route around Michaelerplatz and the courtyards. Museums, imperial apartments and other institutions require separate tickets and may use different entrances.

Something to notice

Choose one gateway. Notice how the scale changes when you pass from street to courtyard.

A little consideration

Stay on permitted public paths, leave entrances clear and respect residents, workers and other visitors.
