Look a little closer

The Washington Monument's obelisk gives the National Mall a clear vertical marker. From the grounds, its apparent proportions change with distance and the surrounding open space. An exterior visit differs from an elevator visit to the observation level, which requires timed entry.

Something to notice

Move between two permitted viewpoints. Compare the monument's apparent height against the same tree or building.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
