Look a little closer

The Musée de la civilisation explores human societies through collections, changing exhibitions and different forms of interpretation. Begin with one subject that invites a question, and notice whose perspective shapes the account. The building connects contemporary museum spaces with Québec's historic lower town.

Something to notice

Choose one object and ask what its label cannot fully explain. Look for another voice in the exhibition.

A little consideration

Follow visitor and photography rules, leave objects and historic surfaces untouched, and give other people room.
